

MBSE Cyber Systems Symposium 2025

Sponsorship & Exhibitor Prospectus

The **MBSE Cyber Systems Symposium 2025** focuses on modeling, simulation, and analysis, scheduled for **7-10 April 2025** at the **Grand Sierra Resort in Reno, Nevada**. This year's symposium theme is *"MBSE - Shaping the Future of a Changing World."* The Symposium will be one of the year's most informative events for CEOs, CTOs, CIOs, systems engineers, software architects, business analysts, developers, and project managers. It provides sponsors with a unique opportunity to enhance their brands, strengthen their market position, make valuable contacts, and generate leads.

Our new venue is a result of our continually increasing attendance in past years. We are planning for up to 600 attendees this year, and the Grand Sierra Resort's meeting rooms allow us to seat over 100 people in our breakout rooms.

Additionally, the Community of Experts of Dassault Systemes Solutions (COE) will be conducting COExperience 2025 the same week and will share the venue with us. Each event will be conducted separately with our same agenda and content structures, but we will share the dining and exhibit areas. So, sponsors this year will have an audience of 1,200 attendees from whom to get leads.

If you're interested in reaching key decision makers in the aerospace, military/defense, transportation & mobility, electronics, banking/financial services, information technology, healthcare/pharmaceutical, or government industries, then join us as a sponsor of the **MBSE Cyber Systems Symposium 2025**.
